

LaunchPad 2021

In association with **The Daily Star**

LaunchPad 2021 is a platform to identify and grow innovative ideas. This one of a kind event is organized by DataBird, a technology holding company based in Dhaka. The company wishes to nurture talented youths and enterprising individuals to reach for their dreams. Under DataBird ShareTrip and Ridmik Labs have become leaders in their respective segments of the tech industry.

LaunchPad 2021 has been divided into two segments for students with promising ideas and for entrepreneurs or professionals with start-ups.

Participants form groups of 2-4 to take part in a cohort-based, open innovation platform to present and validate their idea in front of industry experts. Winning teams would gain invaluable insights to make their ideas highly investable. They will also gain the tools required to turn their ideas into reality.
